RallyHub Directory

Helping players find your club, your venues and your sessions

A simple way for players across Ireland to discover pickleball clubs, venues and sessions — and get to the right contact person.

Why I built this

I started this because I was away from home, wanted a game of pickleball, and discovered how awkward it could be to find the right club, the right session and the right contact person.

RallyHub began as a father-and-son project to help me run Clare Pickleball. I realised the same platform could also do something useful for the wider pickleball community in Ireland.

What's in it for your club?

- Be easier to find
- Show your venues, session times and levels
- Point players to the right contact route
- Keep one up-to-date public listing
- Help travelling players and new local players find you
- Keep using Spond, WhatsApp, Facebook or your own website

Important to know

- ✓ Free to join the Directory
- ✓ No subscription and no catch
- ✓ This is Directory access only
- ✓ RallyHub Club is still under development
- ✓ Claiming a listing does not sign your club up to a future paid product

A little about RallyHub

RallyHub is a project my son and I started to help me run Clare Pickleball across three centres — members, sessions, King of the Court, inter-club challenges and competitions.

It is not on general release yet. For now, the Directory is a separate free contribution to the Irish pickleball community.

Progress

Why you're being asked now

We're inviting a small number of clubs to help test the Directory before wider rollout.

If you're happy to be part of it, I'll send your club's private link so you can review or claim your listing, correct anything that is wrong and help shape the final experience.

"Keep using what already works for your club."

RallyHub Directory is not replacing Spond, WhatsApp, Facebook or your website. It simply helps players discover your club and then direct them to the contact route you choose.
